Rev. F. E. Sheldon, formerly of this city, is doing excellent work in the new territory of Oklahoma, as is shown by the following extract from the *Kingsfisher New World*:

"The First Presbyterian church in Oklahoma was dedicated on Sunday morning, January 19th. The day was fine and a large congregation present. The other churches closed their places of worship to attend the services held in the new church. Rev. F. E. Sheldon preached an eloquent sermon and the entire services were listened to with close attention by the large congregation. The only money to be raised on the day of dedication was for the bell and that was soon done by the congregation present. The bell cost \$100 at the foundry and weighs 800 pounds, it has a fine clear tone and can be heard from five to eight miles. The church cost \$1200, and is neatly painted on the outside and decorated within with handsome paper, which gives it a real home like appearance. The building and the furnishings has been under the special care of the pastor, F. E. Sheldon, and is indeed an ornament to the city and worthy of the growing town of Kingsfisher and her intelligent cultured people."

—In another column will be found the programme of the Farmers' Institute, to be held in this city next Thursday and Friday.

—F. Goldschmidt, of Kinsley, was visiting friends in the city Monday. He leaves in a few days for Cincinnati, where he will visit a short time with relatives before going to Oregon, and in the spring will sail for South America. Mr. G. has many warm friends in this city.

—The date for the meeting of delegates to the Southwest Kansas Immigration convention is February 28th. Let all be on hand that day to labor for the good of the cause. It is expected that many delegates will be present. Let us strive to make their visit a pleasant one.

—Marshal Tarbox requests us to say through the columns of the GLOBE that the dogs must go. We say amen. When human lives are endangered by these worthless curs it is high time that their owners either muzzle or chain them, or have them shot. One dog to the square mile is plenty. We hope Mr. Tarbox will carry out his good intentions.

—The five year old daughter of Mr. Mitchell, of Fifth avenue, was severely bitten by a dog Saturday afternoon. The child was at play outdoors when it was attacked by the dog, its arm being torn from shoulder to wrist in a most frightful manner. The little one was carried into the house more dead than alive, but at this time is doing as well as could be expected. The dog belonged to a Mr. Hassler, and was dreading by the whole neighborhood on account of his viciousness. Marshal Tarbox promptly shot the canine.

—At a meeting of citizens held at the office of the Pioneer Loan & Trust Company yesterday afternoon, action was taken in regard to furnishing matter for publication by the Kansas Immigration Bureau, in the interest of Ford county. Geo. F. McKinney was made chairman, and B. F. Milton, secretary, of the meeting. The committee appointed to prepare and forward to Wichita an article faithfully describing Ford county and its resources, are L. A. Lauber, W. F. Pettillon, W. J. Fitzgerald, L. K. Soper and B. F. Milton.

—The following citizens of Dodge City have been granted patents: J. F. Franky, game board and copy holder. Fred Gardner and J. W. Moore, railway switch. The copy holder on which Mr. Franky has secured a patent is a very convenient device, and though it is intended more especially for type writing machines it can also be used for the same purpose in many other ways. The railroad switch patented by Messrs. Gardner and Moore is said to be a grand invention and much safer than the old one. The switch can be manufactured by the machinist at the railroad shops, and also saves from thirty to fifty feet of rail, which fact alone will insure its adoption by railroads. Mr. Gardner informs us that he will have one of the new switches in operation in the Santa Fe yards at this place within a week.

—The *Bucklin Journal*, speaking of the action taken by Commissioner Hoover and County Attorney Madison in regard to the C. K. & N. foreclosure suit, sums the matter up in this wise, which is correct: "After a thorough investigation of the status of the case, the authorities of this county have concluded to make no further effort to protect its stock in the A. K. & C. R. R. It was found that the road had been legally sold to the C. K. & N. R. R. for \$15,000. At the meeting authorizing this sale, this amount was assigned to C. D. Perry on the condition that he pay all the floating indebtedness of the company. If the entire amount was required to pay these debts the county will never realize a dollar for its stock. If it can be shown that all was not thus used, the county can recover its share of the difference. It is unlikely that anything can be realized and it is wise to expend no money in futile efforts to do it."

Finney county has four lines of irrigating ditches as follows: The Great Western has six miles of main. The Garden City ditch has twenty-seven miles of main. The Illinois has fifty-five miles of main, and the Great Eastern has sixty miles of main, making a total of 141 miles of main ditches, with about an equal number of small lateral ditches. These ditches have been in successful operation for a number of years, and have a capacity of watering 125,000 acres. The Amazon has very nearly as many miles of ditches in the county as the above four. This ditch is new and up to this time has not been operated. It is expected that this ditch will soon be put in operation. This ditch will almost double our area of irrigable lands; these lands once under cultivation, will make this one of the richest agricultural countries in the state.—*Garden City Intelligencer*.

State Soldier's Home.

The following extract is taken from the address of Capt. Henry Booth, Department Commander, G. A. R., delivered at Salina, Kansas, last month. Capt. Booth is determined in the matter of establishing a home for the needy soldier, as is shown in the following:

Through the exertions of Lewis post, No. 294, at Dodge City, Kas., and the patriotic citizens of Ford county, the old Fort Dodge military reservation was secured from the general government by act of congress for a State Soldier's Home. There is something over 118 acres of fine bottom land, and a sufficient number of buildings when property repaired and arranged to accommodate several hundred "old soldiers," their wives and dependent children. The legislature at its last session appropriated \$10,000 for the two years 1889 and 1890 for repairs, furnishing and maintenance. A board of managers was provided for by the law to consist of three members and the Governor appointed as such board comrades J. D. Barker, of Girard, Ira F. Collins, of Sebeetha, and Henry Booth, of Larned, for three years, two years and one year, respectively. The board organized by electing J. D. Barker president, and Henry Booth secretary. Something over \$2,000 has been expended in repairs, and comfortable quarters for at least one hundred old soldiers are now provided at this home. The small amount appropriated renders it impossible to care for very many, until the legislature provides more money for furnishing and maintenance. This home is to be on the cottage plan, and for old soldiers and their wives particularly, although unmarried soldiers are not debarred admittance.

This home is a tardy recognition by the state of the needy old soldier and his no less needy wife. Nearly every northern state in the Union has provided places where the "broken down soldier" can find a home without being separated from his wife, and Kansas, which should have been first in such a patriotic movement, brings up the rear, a method not in keeping with her record upon nearly every other question. Every comrade especially, and every old soldier, should see to it that the member of the next legislature from his district is informed as to the needs of this institution, and requested to assist it by his vote and influence.
